EXPERIENCE

PEEYR | CTO
SEPTEMBER 2015 - PRESENT | DALLAS, TX

Developed the entire Peeyr web platfrom from back end
to front end. Managed a team that consisted of iOS
engineers, web developers, and product designers. Led
sprints using agile and lean methodologies. Defined the
company's engineering culture.

INFUSION | Associate Consultant
JUNE 2015 - AUGUST 2015 | NEW YORK, NY

Worked on Samsung's Interactive Theater which will be
featured in their first flagship store. It will be used to sell
Samsung Solutions high profile clients. Developed an
Apple Watch app for Re/Max that displays the nearest
real estate listings. Designed new layouts for the 9/11
Memorial Foundation's Windows 10 app.

CROWDTORCH | Technology Intern
JUNE 2014 - AUGUST 2014 | AUSTIN, TX

Optimized Crowdtorch's Mobile Platform which creates
event applications for clients. Developed an essential
streaming radio feature used by music festival clients for
a more engaging music experience within their event app.

SELF EMPLOYED | Android Developer
JUNE 2011 - JUNE 2012 | EL PASO, TX

Developed Android apps that replaced the default home
app and provided a unique user experience. Generated
revenues of ~$90,000 and download count of ~50,000. Apps
have reached #1 on the "Top New Paid" list and top 5
on the "Top Paid" list in the "Personalization" Category.

PROJECTS

LONGHORN ENTREPRENEURSHIP AGENCY

Co-developed the UT Entrepreneurship Portal within the
LEA Website. LEA is an agency that provides resources to
student entrepreneurs and is responsible for creating an
entrepreneurial environment throughout the UT campus.

WII REMOTE CONTROLLED CAR

Utilized a Nintendo Wii remote to control an r/c car through
the use of an Arduino microcontroller that reads the
coordinates of the remote's accelerometer and sends
instructions to the car based on the coordinates.
